

Ninja Tech Manager

Munich | Brussels | Abu Dhabi

Your personality and individuality make the difference.

We increase the entrepreneurial performance of our clients and show them the way into the digital age. At the same time we can improve the lives of millions of people, as a driving force behind unprecedented digital products and solutions. And this is where you come in, to create the most impressive customer experiences on the planet.

Is this exactly your thing? Then live your passion in a position where you design innovative technical architectures: for innovative e-commerce, multichannel and Internet-of-Things (IoT) solutions. You will work with standard products from leading manufacturers as well as Open Source and Cloud software that you customize to meet individual customer needs.

WHAT YOU BRING

- > Understand future direction of digital trends, and recommend new technologies based upon business value drivers and return on investment
- > Drive new technologies towards implementation
- > Establish overall application architecture vision & ensure specific components are appropriately designed and leveraged
- > Define system-, technical-, and application architectures for new strategic initiatives; and then develop and maintain an architectural blueprint and evolutionary roadmap that defines and communicates the strategic direction for these architectures
- > Work with business units, customers, partners and suppliers to translate business strategy into discrete requirements
- > Develop the interdependencies between major applications/efforts
- > Guide feature development teams regarding application architecture, technology components, UI guiding principles, system and application design, coding and design standards, best practices, and system performance and availability
- > Review the quality of designs and implementation of solutions implemented by the front-end developers/leads

WHAT WE OFFER

- > Mentor junior team members
- > Provide deep expertise and oversight to team of dealer/customer facing APIs and Digital Market Place developers
- > Provide deep expertise and oversight to technical consultants who assist in API integration with dealers/customer business system and corporate
- > Exciting projects with leading international organisations - we work for the who's who
- > Strong colleagues and good teams
- > Flat hierarchies and close cooperation
- > Leading edge innovation models and processes

WHO WE ARE
